## EDUCATION

**Batchelor of Technology in Artificial Intelligenece and Data Science** **Nov 2022 – June 2026**  
**St.Martin's Engineering College, Hyderabad, India** **CGPA: 9.18/10.0**

**Resonance Eduventures, Hyderabad, India** **percentage: 93.2**

## PROJECTS

### NetflixGPT - [2023-2024]

- Developed a movie search tool using **React**, **Redux**, and **OpenAI** that suggests movies based on user preferences on Netflix.
- Implemented a responsive UI with **Tailwind CSS**, incorporating state management with Redux for dynamic content updates.

### Cravings Restaurant Finder - [2024]

- Developed a restaurant search platform using a locality API to fetch and display data from Swiggy, with state management handled by **Redux**.
- Implemented features like adding/deleting items from the cart and filtering top-rated restaurants.
- Displayed detailed restaurant menus, including available dishes and prices, for a seamless user experience.

### Personal Portfolio - [2024]

- Developed a fully responsive personal portfolio website using React and Tailwind, showcasing skills, projects and achievements.
- Incorporated a skillset section using visual progress bars, reflecting expertise in various programming languages and tools.

## SKILLS

- Languages:** C, C++, Java, JavaScript
- Technologies and Frameworks:** HTML, Tailwind CSS, React, Redux, Node. js
- Tools:** Git, VS Code, GitHub
- Soft Skills:** Problem-Solving, Leadership

## POSITIONS OF RESPONSIBILITY

### Crew Member, COHO (Coding Club) - [2024]

Organized and taught development sessions on HTML, CSS and JavaScript for students in the college coding club.

## PUBLICATIONS

### [EXPLORE YOUR C PROGRAMMING IN REAL WORLD](#)

- Authored "Explore your c programming", offering in-depth insights into C language fundamentals and advanced concepts.
- Simplifies complex programming topics for beginners and aspiring developers with clear examples and practical exercises.

## EXTRA-CURRICULAR ACTIVITIES

### Technical Blogging

[State Management in React with Redux](#) - Simplified guide on managing state with Redux in React applications.

[Reconciliation in React](#) - Overview of React's reconciliation process for efficient UI rendering.
